

# PCX Lite

## Conversion Instructions

- 1.** Convert CASE to tote by pressing top handle release button

- 2.** Pull handle upward until fully extended for TOTE

- 3.** Covert tote to CART by pulling up on second release button of handle located near the top of the case

- 4.** Push top of case forward to release handle from case

- 5.** Separate the handle from the case and place case hard side down on flat surface

- 6.** Place top pins on handle into top portion of brackets attached to wheel end of case

- 7.** Once pins are securely in place, hold case steady with one hand while pulling back on top of handle with the other until wheels snap in place.

- 8.** Push in top button of handle to fully extend into cart position - load up to 100 lbs of items and pull along with you

- 9.** To release wheels from cart position, pull up on the middle latch (located between the wheels) while pushing top of handle toward the case until wheels release from case
