Optional Accessories

SDL/Saddlebag
Double your carry-on capacity. Designed as a place to put your jacket, overcoat, tickets, magazines, snacks, etc. Slip over the sliding handles. Black 400 denier material, strap handles, removable shoulder strap, insignia, two or three storage areas (depends on the version), Velcro, and YK fasteners.

Hook/Accessory Strap
Snap onto a "D" ring and attach another case (computer, briefcase, etc.) to the outside of your Porter Case when in the tote position. The adjustable snap buckle mechanism will hold another case with a secure grip.

PHPK/Soft Divider System
Convoluted gray foam for the lid, 1/2" HD foam sheet for the bottom. A cloth covered HD foam outer ring 4.5" tall with a Velcro strip on the outside to grab the case walls, one large divider, four medium dividers and ten small dividers. All of the above are adjustable with Velcro.

AV Kit/ ring, divider, & foam
Generic interior that allows the case to adapt to a variety of equipment. 1/2" sheet of HD foam for the bottom, a large outer cloth covered padded ring with Velcro on the outside to grab the case walls and 2 partial rows of Velcro inside that adjusts the semi-rigid divider as needed, plus a sheet of convoluted foam for the lid.

Computer/ Insert - padded ring & foam
Generic cloth covered padded ring that allows the case to adapt to your notebook or other equipment. The cloth covered padded ring has Velcro on the outside to grab the case plus several blocks of medium density gray foam to help give a snug fit to your equipment.

FM/Foam System II Kit
Four layers of gray foam 1.25" thick cut to fit the bottom of the case with a sheet of convoluted gray foam for the lid. Generic kit for most any application. Use a marking pen to draw outline of items to be protected and cut with electric carving knife, craft knife, or scissors.

Soft Computer Bag
Fits inside the larger PC II wheeled carryon, or it can be attached to the outside with the accessory strap. A padded shoulder strap is included. The ideal solution for those times when you don't want to roll your Porter Case. Use the hard-side Porter Case to help transport and protect your soft case.

Suit Bag
Suitbag - a light weight tri-fold suitbag made of 200 denier material with embroidered logo on the outside wall and breathable mesh material with zipper on the inside wall. There is a wire frame that helps you form the tri-fold shape needed to help it fit into the lid of the full size PC II Standard case.

Computer Sleeve
2 sizes: A - 12" x 15" or B - 14" x 15" Security pouch to help protect your notebook computer, constructed of neoprene style foam covered with 1400 denier cloth, a webbed finger loop on one end and a velcro webbed security flap on the open end, and an embroidered logo.

72" EXT/Tie Down Strap
72" long black 1" wide webbing strap has a nickel plated snap shackle on one end and was designed as a tie down strap for luggage stacked on top of your Porter Case.
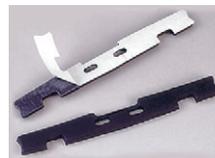

NSPD/Non Skid Pad
Three 12" X 12" sheets composed of a waffled rubberized non skid material, designed to lay on top of your Porter Case and in between the layers of other luggage when it is in the cart position. Material will help prevent hard sided cases stacked on top from sliding around.

PDH/Top Handle Pad
Designed for Porter Cases sold prior to June 1998. Handle pad, if added, provides comfort.
